

Kyrylo Leshchenko

Newmarket, ON • kyryloleshchenko@gmail.com
github.com/Kryloss • linkedin.com/in/kyrylo-leshchenko2007

Cyber Science student at Toronto Metropolitan University focused on security operations. Self-taught in Python and Linux, building projects and preparing for technical roles.

TECHNICAL SKILLS

Languages: Python, C, HTML/CSS

Web & Cloud: Vercel, Supabase

Systems & Tools: Linux (Ubuntu), Windows, Git / GitHub, dual-boot configuration

Spoken Languages: English, Ukrainian, Russian

PROJECTS

kryloss.com | Personal Website

Vercel, Supabase

- Built and deployed a personal site on Vercel with a Supabase PostgreSQL backend.
- Developing a sync script so site content is driven directly from an Obsidian vault.

Self-Hosted AI Agent Home Lab

OpenClaw

- Set up OpenClaw, an open-source AI agent, on an Ubuntu laptop to experiment with self-hosted automation and protect personal data.

EDUCATION

Toronto Metropolitan University

Bachelor of Cyber Science (Honours) | Sept 2026 - Expected 2030

Sacred Heart Catholic High School

Ontario Secondary School Diploma | Sept 2022 - June 2026

EXPERIENCE

Barista, Starbucks

Upper Canada Mall, Newmarket | Oct 2025 - Present

- Deliver friendly service in a high-volume store, building repeat customers.
- Support teammates during peak periods and keep operations running smoothly.

Shift Supervisor, Tim Hortons

Newmarket | Oct 2023 - Oct 2025

- Supervised and coordinated team members. Assisted with scheduling, training, and performance monitoring.
- Led closing shifts, delegating tasks and ensuring closing duties were completed.
- Resolved customer concerns and operational issues quickly under time pressure.
- Fostered a positive work environment and motivated staff to meet store goals.

PARTICIPATION

Volunteering

Newmarket | Summer 2025

Supported children's programs and library equipment at Newmarket Public Library; helped run community fairs and designed event merch in Photoshop.

Catalyst Summit | Rogers Cybersecure Catalyst

Oct 3-4, 2026

Attended TMU's annual cybersecurity summit, which brings together industry, government, and academic leaders to discuss cyber threats, resilience, and careers.

Shift Leadership Workshop

Newmarket | Mar 12, 2024

Completed training on leading shifts and improving guest satisfaction.
